1. INTRODUCTION

**The function of an industrial enterprise is fundamental and undeniable, but its economic purpose alone cannot make its actions legitimate. It must be integrated with respect for people, the community and the environment.
Ernesto Illy – 1976**

This document called the "Code of Ethics" (hereinafter also the "Code") governs all the rights, duties and responsibilities that the illycaffè Group (hereinafter also the "Group") expressly assumes towards its stakeholders with whom it interacts on a daily basis in the course of its activities.

illycaffè's strategies have always been aimed at a sustainable and transparent business model, integrating economic goals with social and environmental ones. illycaffè believes that the guiding principle for business is creating shared value for all those involved in the entire production chain, through a process of constant improvement. Over the course of many years, the company has developed a programme that includes systems of environmental management, the optimization of energy use, research and innovation, shared responsibility, traceability of the raw materials, and support for local communities - all based on a long-term vision. As a Benefit Company, in the exercise of its business the Company pursues purposes of common benefit and operates in a responsible, sustainable and transparent manner towards people, communities, territories and the environment, cultural and social assets and activities, bodies and associations and other stakeholders.

illycaffè believes it is fundamental to pay its collaborators fairly, offer its clients fair and transparent sale conditions, and make sure its suppliers can make a fair profit. illycaffè encourages and promotes the adoption of this code of ethics by the entities that are part of the illycaffè Group and that operate both in Italy and abroad.

1.1 illycaffè's mission and vision

illycaffè's mission is to delight all those who appreciate beauty and flavour worldwide with the best coffee nature can offer, enhanced by the best of technology and art. This means completely satisfying our customers through excellent products and services, creating the conditions for the greatest personal and professional fulfilment of its collaborators, and creating value for its shareholders, while always maintaining complete economic and social correctness. illy aims to be the reference standard for coffee excellence and culture worldwide, an innovative company that offers the best products and places to enjoy them, and thanks to this grows and becomes a leader in high-end coffee.

illycaffè pays particular attention to the human aspect: it promotes the development and professionalism of its staff, who are an indispensable factor in the success of the company. In particular, it ensures maximum respect of the regulations regarding health and safety in the workplace and the protection of privacy.

1.2 illycaffè's values

Ethics: understood as the creation of long-term value through sustainability, transparency and personal development.

Excellence: meaning the love for goodness and beauty.

1.3 Cooperative approach to stakeholders

illycaffè aims to maintain and develop its relationship of trust with its stakeholders: the categories of individuals, groups or organisations whose contribution is necessary to fulfil the company's mission, or who have a stake in pursuing it.

The hierarchy of illycaffè stakeholders is represented by an inverted pyramid. Our consumers are at the very top, followed by our clients, who are our partners in serving the consumers. Then there are the company's collaborators with their professionalism and passion. Next come our suppliers, who ensure the excellence of our products, then there are the communities the company has a relationship with, and finally, there are the shareholders, who are at the service of the company. For each of these stakeholders, illycaffè pursues economic sustainability through the creation of shared value: social value, through personal growth, and environmental value, through respect for the planet.

1.4 The value of ethics

illycaffè believes that respect for ethical conduct and transparency in business is essential for the pursuit and achievement of its goals.

The company's commitment to these beliefs is reflected in its adoption of a number of specific principles of conduct that must be maintained in relationships with the Public Administration, the market, and with third parties. illycaffè promotes the creation of an environment with a strong sense of ethical integrity, in the belief that this makes a vital contribution to the effectiveness of the company's policies and control systems.

Since the Code of Ethics clarifies the specific duties of illycaffè towards stakeholders (fiduciary duties), all those who work with illycaffè are strongly encouraged to follow the Code and to consider it a benchmark against which to judge the reputation of the company. The Code of Ethics is therefore made up of:

- general principles for the relationships with stakeholders, which give an abstract definition of the reference values for the activities of illycaffè,
- the criteria of conduct for each class of stakeholders, offering specific guidelines and regulations to which illycaffè collaborators should comply in order to respect the general principles and to prevent any risk of unethical conduct.
- implementation mechanisms, describing the control system for compliance with the Code of Ethics.

1.5 Validity of the Code and its application

illycaffè has adopted this Code. It outlines all the fundamental principles that inspire the company's activities and guide the conduct of its collaborators and all third parties. These principles ensure the efficient functioning, the reliability, and the trustworthiness of the company. In particular, and by way of example:

- the members of the Board of Directors maintain the principles and values set out in the Code when outlining the company's goals
- the managers implement the principles and values set out in the Code, assuming reasonability towards all those inside and outside the company, reinforcing the trust, cohesion and spirit of the group;
- the actions and conduct of employees and collaborators comply with the principles, values, goals and commitments set out in the Code.

The Code has a global value, both in Italy and abroad, with any modifications that might be necessary or suitable to meet the different conditions in which illycaffè operates in other countries.

Each illycaffè Group entity is responsible for transposing the standards of conduct in the Group Code of Ethics and adopting them locally and updating them whenever necessary to reflect changes in the legislative framework, business practices and ethical standards of the communities that the company operates in. Therefore, each entity of the illycaffè Group must adopt this Code of Ethics, updating it where needed to incorporate the specificities of the different countries and/or modifying it in accordance with the applicable regulations after notifying the Parent Company.

The Code of Ethics is issued by individual entities in English and in the language of the country that the entities operate in to ensure that all recipients have the opportunity to understand the illycaffè Group's ethical standards.

This Code of Ethics therefore constitutes a code of conduct whose observance by all recipients is of fundamental importance for the proper operation, reliability and reputation of the illycaffè Group.

In order to ensure its compliance and effectiveness, illycaffè:

- assigns to the Management, or its representative, responsibility for the management, implementation, monitoring, control and updating of this Code;
- ensures the timely dissemination of the Code within the Company and to all recipients;
- provides training and information in the event of questions about the Code's interpretation;

- ensures that employees who report violations of the Code are not subject to any form of retaliation;
- adopts fair disciplinary measures commensurate with the type of violation of the Code, applying them indiscriminately to all categories of employees with reference to the provisions of current law, contracts and internal regulations, in accordance with the provisions of the Disciplinary System referred to in the 231 Model.

This Code is aimed at the corporate bodies and their members, collaborators, temporary collaborators, consultants, agents, intermediaries and any other party that may act on behalf of illycaffè, hereafter known as “Recipients of the Code of Ethics”

illycaffè requires all third parties which whom it collaborates, both in Italy and internationally, to act according to the principles outlined in the Code. These Third parties will duly be informed about the Code.

4.4 Sanctions

illycaffè will take appropriate disciplinary measures, in relation to the gravity of the violation in question, independent of any legal proceedings by the judicial authorities. In particular, any violation of the Code by employees and/or managers will result in the application of disciplinary measures, proportionate to the severity, repeated nature or the degree of fault of the violation, in compliance with article 7 of Law no. 300 of 20 May 1970 and the provisions contained in the relevant employment contracts.

The terms of the Code also apply to temporary collaborators who are required to respect the terms set out in it. Any violations of the Code will be punished with disciplinary measures taken against them by their respective employers, who are required to apply such measures by their specific contractual commitment with illycaffè.

In regard to Directors and Auditors, any violation of the terms of the Code may result in the adoption by the Board of Directors and Board of Statutory Auditors respectively of disciplinary measures that are proportionate to the severity,

repeated nature or the degree of fault of the violation. Such disciplinary measures may include dismissal for just cause, to be proposed at the Shareholders' Meeting. In the latter case, illycaffè is entitled to any damages resulting from the violation.

With regard to suppliers, contractors and external consultants, in the event of a violation of the terms of the Code of Ethics appropriate sanctioning mechanisms (termination for breach, express termination, penalties, etc.) will be assessed on a case-by-case basis depending on the identity of the counterparty, without prejudice to illycaffè's right to request compensation for damages that occurred as a consequence of such violations.
